## Technical Characteristics

### Main Data

<b>ROBUST 4000</b>		<b>ROBUST 5000</b>	
Power	127 hp/94 kW	Power	127 hp/94 kW
Screen size top deck	3,660 x 1,370 mm	Screen size top deck	4,880 x 1,525 mm
Screen size bottom deck	3,455 x 1,370 mm	Screen size bottom deck	4,575 x 1,525 mm
Transport width	2,55 m	Transport width	2,90 m
Transport length	12,75 m	Transport length	15,30 m
Transport height	3,20 m	Transport height	3,40 m
Transport weight	approx. 23 t	Transport weight	approx. 35 t

### Optional Accessories

Top and bottom deck optional with punch plate, finger screen or square mesh

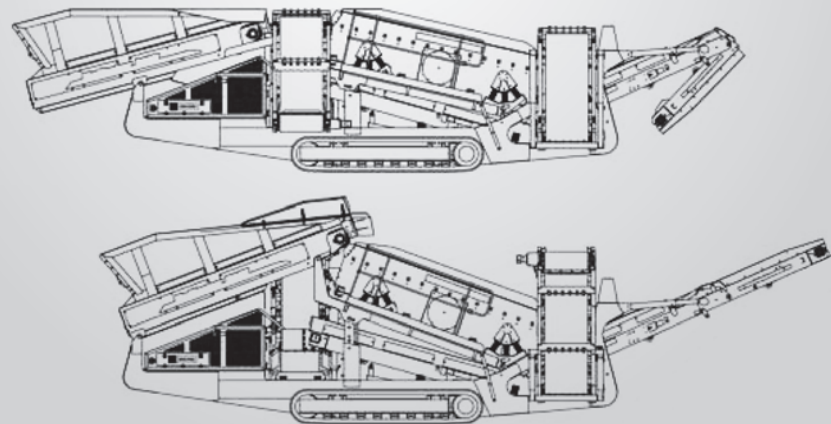

Belt feeder instead of apron feeder

Overband magnet separator

Hopper extensions

Remote control

### Technical Drawing

Screen box with a variety of mesh options

Side panels for hopper extension

Belt feeder

*Powerful, Heavy-duty  
Tracked Screening Machines  
for Tough Jobs*

*Heavy-duty screening machines,  
robust and durable*

**ENDERS ROBUST 4000/5000 robust heavy-duty screening machines for high outputs, for screening coarse and heavy material.**

The ENDERS ROBUST 4000 and ENDERS ROBUST 5000 machines are outstanding professional tools and are therefore ideal for screening/scalping in quarries and for demolition waste, heavy rock or for difficult-to-screen material.

The characteristic features are the large loading area with an extended, wide hopper with a volume of 8 m<sup>3</sup>. The wide feed opening enables the material to flow easily for a high volume capacity.

On the ENDERS ROBUST 5000 the heavy-duty screen box with size of 4.88 x 1.52 m in the top deck and 4.58 x 1.52 m in the bottom deck offers efficient and high volume outputs. Longer operating times, due to the user-friendly and time-saving wedge system, ensures faster screen change.

The ENDERS ROBUST 4000/5000 guarantee high intake volumes for a very low purchase cost and low running costs in comparative terms. Wide chutes enable a smooth material flow, while the outstanding design minimizes spillage of material. Thanks to their robust and sturdy construction, the ENDERS ROBUST 4000/5000

are also the most durable machines currently on the market. The open, maintenance-friendly design enables short set-up times and fast and easy access to each individual component.

A powerful and economical CAT diesel engine and the hydraulic system deliver high output for low fuel consumption.

*Heavy-duty screen box*

*Plate belt apron feeder*

*Feeding hopper*

*Powerful, economical  
CAT C4.4 diesel engine (TIER 3)*

*High discharge height,  
high stockpiling capacity*
